Practical Strategies for  
Art Business Success

# Introduction:

As artists, your primary focus is on creativity and self-expression. However, navigating the business side of art is just as crucial for achieving success.

Our program is designed to help artists like yourselves thrive by providing presentations tailored to the practical aspects of the art business.

We work with artist groups to create custom sessions on topics like *photographing and reproducing your artwork, Internet marketing, Copyright, and exploring new revenue streams.*

Our goal is to equip your members with the knowledge and tools artists need to grow their artistic careers.

## Photographing Artwork:

High-quality images are essential for showcasing your work, whether you're putting together a portfolio, selling prints, or marketing online.

Our presentation covers the fundamentals of photographing your artwork, from choosing the right equipment to setting up lighting and handling post-processing. We emphasize the importance of accuracy in color reproduction and clarity in detail to ensure your images do justice to your original pieces.

## Reproducing Your Work

Beyond photography, we explore options for reproducing your artwork.

Whether you're considering *Giclée Prints, Posters, Greeting Cards or the myriad other options*, we provide insights into the pros and cons of various methods.

We also discuss how to find reliable printing partners and ensure the final product meets your expectations

## Internet Marketing and Website Optimization

## Expanding Your Product Line

Diversifying your offerings can open up new revenue streams and make your work accessible to a broader audience.

We guide artists through various options, such as turning their original artwork into prints, greeting cards, posters, and more.

We cover everything from design considerations to choosing the right materials and ensuring your products reflect the quality of your original art.

Giclée prints, for example, are a popular option for artists looking to offer high-quality reproductions. Our presentation explains the benefits of Giclée printing, including its ability to capture the fine details and colors of your work.

We also explore other opportunities, such as creating custom merchandise like *Coffee Mugs*, *Greeting Cards*, *T-shirts*, and *Calendars*, all of which can be excellent ways to promote your brand and generate additional income.
